

# San Francisco City and County

## Transportation 2030 Issues for San Francisco:

### 1. A Performance-Based Approach to Transportation Investment

- Heavy emphasis on maintenance and rehabilitation
- Flexibility to invest in safety, efficiency improvements, and cost-effective expansion

### 2. Regional Solutions for Regional Problems

- Population-based fund allocation formulas do not reflect need: San Francisco must address about 22 percent of the regional transit shortfall, but has only 11 percent of the Bay Area population
- Change the formulas or allow some "off the top" funding for regional transit needs

### 3. Make the Transportation/Land-Use Link a Funding Link

- No discretionary capital funds for transit expansion projects identified in MTC Resolution 3434 until land-use commitments are in place
- Priority for discretionary operating funds should go to systems that meet land-use/densification commitments

### 4. Prioritize San Francisco Projects and Initiatives

- With Prop K sales tax funds now in place, reaffirm 2001 Regional Transportation Plan commitments:
  - Central Subway
  - Caltrain Downtown Extension to a Rebuilt Transbay Terminal
  - Caltrain Electrification
  - Doyle Drive
- Leverage Prop K sales tax initiatives with Transportation 2030 dollars:
  - Bus Rapid Transit
  - Pedestrian and Bicycle Projects
  - Traffic Calming

(See other side for more information)
